## FURNISH US POWER

MAYOR BABCOCK RECEIVES A LETTER OF INTEREST TO EVERY CITIZEN.

## IT CAME IN MONDAY AFTERNOON

**Big Niangua Power Co. Would Be Glad to Run a Line to Sedalia and Furnish Power if Given Sufficient Patronage.**

Mayor J. L. Babcock late Monday received a letter from A. N. Martin, secretary of the Big Niangua Power Co., of Lebanon, Mo., inquiring about the consumption of power daily by Sedalia merchants, manufacturers and citizens, with a view to running a line to this city and furnishing electric lights and power.

Mr. Martin, according to the information received, states that the company which he represents is equipped to supply motive power, lights for public and private use and power for street railways, if necessary.

A copy of themissive received by Mr. Babcock was furnished the Democrat-Sentinel on application last evening, and is given in the following:

"Lebanon, Mo., Jan. 2, 1910. Mayor of Sedalia, Sedalia, Mo. Dear Sir: I see by the papers that Sedalia has been having trouble with her power company. We are interested in the outcome.

"If Sedalia could use sufficient power to justify our company to run a line to it, we might make a rate that would startle you. The plant which we are installing is a water power on the Big Niangua river, in Camden county, about sixty miles from Sedalia.

"The expense of running a line to Sedalia would be great, but if we would be assured that the daily consumption would warrant it, we could deliver current at your switchboard in Sedalia for less than any steam plant can make it.

"Please let me know about how much power is used in Sedalia daily. If Sedalia could guarantee us the sale of 25,000 kw. daily we would make a price that would put Sedalia on the map.

"Cheap power is one of the greatest inducements that could be offered to secure the location of mills and factories in a city. Hoping to hear from you at your earliest convenience, we are, yours truly.—A. N. Martin, Secretary Big Niangua Power Co."

The Niangua company is incorporated with a capital stock of \$490,000. The officers are: L. Phillips, president; J. T. Pendleton, vice president; A. N. Martin, secretary; W. C. Clayton, treasurer.

The discussion, which was enthusiastic, was led by Dr. Henry Evans, in the absence of Dr. Ira T. Bronson.

The election of a delegate to the state convention was postponed until the next regular meeting, on Monday night, January 17.

Mrs. Brent is a sister of Mrs. W. G. Lynch, wife of one of Sedalia's leading attorneys. She is a decided blonde, pretty and refined, and, like her life helpmate, has many friends, who will join the Democrat-Sentinel in extending congratulations.

The only attendant at the wedding was Miss Frances Welch, a sister of the bride, and W. P. Anderson, of San Francisco, Cal.

The annual report of Dr. E. A. Wood, of Maywood hospital, showing the number of patients, surgical operations and deaths at the institution for the year 1909 was prepared today.

The report covers the seven months ending on December 31, last, the hospital having been closed during the previous five months of the year on account of a thorough remodeling being under way.

During the seven months ending on December 31, 140 patients were admitted to the hospital.

During that period there were sixty-five surgical operations, not a single death resulting from any of the operations.

Only five deaths occurred at the hospital during the year, all of these resulting from chronic diseases.

The price paid for the land was \$22,000. Weinrich & Stambough, real estate dealers, made the sale.

The sale did not include the cattle, other stock and farm implements owned by Mr. Garman, who intends to continue in the dairy business as heretofore.

Henry Laupheimer Didn't Miss It in November When He Said We Would Have an Unusually Cold Winter.

Sleet began falling in Sedalia between 5 and 6 o'clock this morning, followed later by snow, making pedestrianism both difficult and disagreeable.

At 1 o'clock p. m. the mercury at Fourth and Ohio streets registered 15 degrees above zero.

The "soft Italian climate" of the past few years appears to have gone glimmering, so far as the winter of 1909-1910 is concerned in Missouri.

Henry Laupheimer stated to the Democrat-Sentinel in November that we would have an unusually cold winter, and he certainly has not missed it. The reason for his prophecy was that the fur of all animals was unusually heavy last

## THE PROSPECTS AHEAD.

An authority on business conditions  
has this to say regarding first of the  
year conditions:The year 1910 opens with favorable  
business conditions. Strength is given  
to stocks and bonds by assurance  
that the issues rest on sure foundations,  
with every prospect of continuing  
active operations, resulting in  
good earnings and substantial profits.The uncommon agricultural pros-  
perity of the country is a conserva-  
tive and tranquilizing force, felt far  
and wide, and a natural sequence is  
industrial activity. This is indicated  
by the trend in the security market,  
regarding which an expert observer  
writes:In considering the market from  
the immediate speculative point of  
view account must be taken of the  
fact that transactions for a long  
time have been largely composed of  
steady investment buying in large  
and small lots. While professional op-  
erations may be influential in a day's  
transactions, they are relatively of  
scant consequence in the final result,  
simply wagers based upon conflicting  
opinion, through which scalpers seek  
quick profits.Investment buying is lasting in its  
effect, taking away from Wall street  
the so-called floating supply of securi-  
ties, a movement now assuming for-  
midable proportions."There is steady readjustment in  
the railroad world, with every prom-  
ise of big business and better profits.  
So, altogether, the outlook for the  
New Year is encouraging every-  
where. The merely speculative aspect  
of the case gives the general public  
little concern, although it may be re-  
garded as significant that some ex-  
tensive operators are predicting higher  
prices for securities in the near  
future, owing both to the prospect of  
increased earnings and to get money  
into good active stocks.Naturally, one result will be a  
stiffening of rates and also a hard-  
ening of prices for money, and some-

thing of this sort may be foreshadowed by the tightening of several of the foreign markets. The first of the year is generally a period of relaxation in money rates, largely because of the sums then awaiting reinvestment.

London is said to have promised to repay about \$15,000,000 advanced by the banking powers of Paris, and this will aid in equalizing the market conditions. There may be some shipment of gold from this country to Europe, but with increasing trade balances in favor of the United States this country remains in an advantageous position.

Dr. Wilfred T. Grenfell, the well-known missionary, author and lecturer, who has just returned from a wedding tour through Labrador, with which he is thoroughly familiar, gives it as his opinion that the country will attain commercial importance by exporting large quantities of meat, cereals and other products, in addition to the fish already sent from that quarter. Dr. Grenfell is certain the herds of reindeer imported from Lapland will extend all over Labrador, and as their flesh makes excellent eating he sees a big business in the sale of such meat, and he adds: "Barley, oats and other cereals will also flourish, and lumbering offers another big field for development." The old-time idea that cold regions, like Alaska and Labrador, are incapable of commercial development are giving way completely before modern experience. Spitzbergen used to be considered a cold and sterile no-man's-land, but more recently that region has been found rich in natural resources. It is no longer safe to pronounce any part of the earth's surface absolutely valueless.

Pattonburg, Mo., Jan. 4.—The trials and privations of years of pioneer life and the vicissitudes of changing fortunes have not served to lessen William Galbreath's enjoyment of life. "Uncle Billy" will be 85 years old in March, but he still enjoys excellent health and it would be hard to find a more genial, pleasant character.

For over sixty years he has been a loyal and enthusiastic resident of Missouri, coming to the state in 1846 and settling where the town of Coffeyburg now stands. He helped to lay out the town in 1852. The ground on which the Bank of Coffeyburg now stands was his front yard.

"Uncle Billy" has always been very temperate in his habits. "I never drank liquor, chewed or smoked tobacco," he says. "I have always had good health and am of the opinion that my habits are largely responsible."

Mrs. Galbreath died in 1901. She married Mr. Galbreath in 1847 in Kentucky, shortly before they moved to Missouri.

knowing that thereby our future blessing is increased.

**"What Shall I Render?"**

As the consecrated believer considers what God has already done, and what he proposes yet to do for his

faithful, gratitude wells up in his

heart and his inquiry is, "What shall I render unto the Lord for all his

benefits?" The more he considers

the matter, the more he realizes that

his talents and opportunities are ne-cessarily small, insignificant. It is

from this standpoint that the poet wrote, "O, for a thousand tongues to sing my great Redeemer's praise."

It is well indeed to show our apprecia-tion of God's grace by songs of thankfulness and praise, but we are to remember that not merely poetic cadences are our acceptable songs, but from the proper standpoint life itself is the proper hymn of praise to be continually rendered to the king of kings. "Singing and making melody in our hearts unto the Lord" will imply that our works will be in harmony—a song of life" (Ephesians v, 19).

Taking the Cup.

The Psalmist's answer, prophetic-ally represents the attitude of heart of all—the faithful. Each is expected to

say, "I will take the Cup of Salvation and call upon the name of the Lord"

(Psalm cxvi, 13). The cup of salva-tion at the present time is the "cup" which our Lord proffered to his dis-ciples, saying, "This is my blood of

the New Covenant shed for many for the remission of sins. Drink ye all of it" (Matthew xxvi, 27, 28). It is a "cup" of suffering, self-denial, self-sacrifice, as respects the earthly things which we give up, surrender, that we may attain the heavenly things as joint heirs with our Re-deemer. There might be danger, how-ever, of some getting the wrong thought on this subject. There is a peculiar pleasure in drinking of the Lord's "cup" of self-sacrifice, which those who have never partaken of can not hope to understand. It is the pleasure of fellowship in his sufferings, as St. Paul explains. And a part of the pleasure connected with that "cup" is the associated hope of drink-ing with our Lord of his other cup of joy and glory and blessing in his Kingdom, as he has promised.

The necessity of partaking of this "cup" of the Lord is shown by the Savior's words to two of His disci-ples who inquired, saying: "Lord, grant that we may sit with thee, the one on thy right hand and the other on thy left hand in the king-

## SURPRISINGLY QUICK CURE BY CUTICURA

"Cuticura did wonders for me. For twenty-five years I suffered agony from a terrible humor, completely covering my head, neck and shoulders, so that to my friends, and even to my wife, I became an object of dread. At large expense I consulted the most able doctors far and near. Their treatments were available, nor was that of the Hospital during six months' efforts. I suffered on and concluded there was no help for me this side of the grave. Then I heard of some who had been cured by Cuticura Remedies and thought that a trial could do no harm. In a surprisingly short time I was completely cured. S. P. Keyes, 147 Congress St., Boston, Mass., Oct. 12, 1909."

**With Cuticura when Everything Else had Failed.**

"I am very grateful for Cuticura as my daughter had been suffering for eleven months with great bodily pain in her body. We tried every remedy—had one costly mention but nothing was any good. The boils made her very weak and ill and she had to leave her place. After using one tablet of Cuticura Soap, one box of Cuticura Ointment, two vials of Cuticura Pills and three bottles of Cuticura Resolvent she got quite well and has not had the boils since. I should have written to you before but have been awaiting to see if the trade signs of any cuticular soap. My daughter is eighteen years old. Mrs. Ellen Heather, Hillside Rd., Ash Common, nr. ## SAVED THE NEGRO

A MISSISSIPPI SHERIFF WINS IN DEATH RACE WITH POSSE OF MEN.

## BLACK MAN HAD KILLED OFFICER

Mob of One Hundred Organized, But Murderer Surrendered to the Sheriff and Was Taken Away in Automobile.

Meridian, Miss., Jan. 4.—Dashing over muddy Mississippi roads and through inky darkness in automobiles at high speed a posse of a hundred men pursued a negro in custody from Sheriff Deane, who was driving a high powered machine from Columbus to this city Sunday.

The superior speed of Sheriff Deane's car saved the negro from lynching.

The officer landed the prisoner in jail in Meridian fifteen minutes before the leaders of the posse dashed up to the jail in their automobiles.

The negro was John Watts. Early Sunday night he fatally shot Major Cook, of the Columbus police. When a squad of officers attempted to arrest the negro, Watts escaped, but surrendered to Sheriff Deane.

Already a posse had been organized. When its leaders heard the sheriff had Watts in custody, they went to his house and demanded the negro.

The sheriff said he would give the man up, but instead he rushed Watts through the back door to a garage, got an automobile and started for Meridian.

## LOVES HIS ICY BATH

James Patton Plunges Into Gorged Mississippi River.

St. Louis, Jan. 4.—James Patton, jr., 2702 North Broadway, who finds sport swimming in the Mississippi river when it is gorged with ice, was at work Monday, not a bit handicapped by his half-hour swim at the foot of St. Louis avenue while friends bundled in overcoats shivered on the levee.

Patton says that he has been taking winter swims in the river for the last three years and that he enjoys them greatly.

He is of the opinion that cold water plunges in winter protect one from many diseases. He has no fear of pneumonia. He is 22 years old and a cooper.

## THIS FELLOW EATS EGGS

He'd Keep "Hank" Blatterman and "Tom" Rowe Quite Busy.

J. T. Wooden, of Moberly, claims to be the champion egg eater of Missouri. To decide a wager he went

to Centralia and ate forty scrambled eggs in eleven minutes. He ate the first twenty in two minutes. It required nine minutes to take care of the second twenty, owing to the fact that the eggs were served hot and he had to wait for them to cool.

After this appetizer the capacious man ordered a steak and more scrambled eggs to complete his dinner. He says that his actual capacity is one hundred eggs in thirty minutes, and he offers to meet all comers in a scramble egg eating contest.

## "JIM" REED ANGRY

HE DENIES STORY OF ANY ATTEMPT TO "PACK" KANSAS CITY CONVENTION.

## ST. LOUIS REPUBLIC IN ERROR

In a Dictated Statement to the Editor of That Paper Reed Gives His Views on the Tariff and Other Matters.

Kansas City, Mo., Jan. 4.—"I can hardly believe," said James A. Reed last night, "that the article which appeared in this morning's St. Louis Republic was printed with the approval or knowledge of those in authority on that paper.

"Should the Republic have the interests of the democratic party at heart it seems inconceivable that an article tending toward disrupting the party harmony should appear in its columns. The only reason that this article has not harmed the party organization is that the democrats of large know there was no basis for its publication.

"My position on the tariff is too well known throughout the state to be put in a false light by an article of this kind. As for packing the convention to be held at Kansas City Jan. 8, such an assertion is preposterous.

"Democrats understand that the Kansas City meeting is to be more in the nature of a love feast than a convention. Delegates have been selected from over the state to come here for the purpose of getting together in the interests of party harmony. No delegate's credentials will be examined. Every democrat who puts in an appearance will be given a welcome. All that will be done at this meeting will be the making of a few speeches and afterwards a banquet.

"Should it have been my desire to 'pack' this meeting with my friends, something that I certainly have no wish to do, what would it avail me?

"No senator is to be named at this time, and if every man present should shout himself hoarse for Reed, what effect would have on the senatorial situation? Absolutely none."

Mr. Reed declares that when the question of holding a harmony meeting was first talked of by the democrats of the state, he suggested that the meeting be held at Jefferson City. Leading party men, he says, were not in favor of that plan.

"I did not select the place for holding this meeting," said Mr. Reed. "The democrats of the state got together and decided that it should be held in Kansas City. From a personal standpoint I should much rather have seen the meeting go to some other city, for in that event there could surely have been no inference that the gathering was for the purpose of advancing my interests."

Mr. Reed last night dictated the following statement to the editor of the Republic:

I was both astonished and grieved to find in the Republic of today a front page article bearing the headline "Democrats Resist Activity of Reed." The article, in effect, contains two charges:

First—that I have been trying to "pack" the convention to be held here next Saturday.

## NAILS HUMAN EAR TO WALL

Owner, Who Lost It in Fight, Now Having It Grafted in Place.

Chant, Ok., Jan. 4.—While celebrating the holidays with too much "boot-leg" whisky, a free-for-all fight took place in a pool hall Sunday night, in which one of the participants lost his ear.

One of the men bit an ear off another with whom he was fighting and the ear dropped to the floor, whereupon a bystander, who had also been drinking, grabbed it up and nailed it to the wall before the owner could recover it.

The ear was recovered, however, and an effort is being made to graft it back in its proper place.

It is claimed that both men were using their teeth in the fight, and that the one who lost his ear has agreed not to prosecute his antagonist, provided the latter pays all doctors' bills and for the time lost while the ear is mending.

Jefferson City, Mo., Jan. 4.—Three petitions, bearing the signatures of 112 voters of Jackson and Howard counties, have been filed with Secretary of State Roach, demanding the submission of a prohibition amendment to the state constitution at the next regular election. Under the initiative, the minimum number of signatures of bona fide voters is 22,000. Two of the three petitions are from Jackson county and are the same filed here a few days ago. They had to go back because the addresses of the signers were not given. They were gotten up at Grain Valley, Blue Springs and Lee's Summit. The other

petition was circulated at New Franklin, Estill and Fayette.

## JOB FOR NEGROES

TO COUNT WHITE NOSES IN MISSOURI IN TAKING THE NATIONAL CENSUS.

### THE SITUATION IS NEW ONE HERE

Advent of "Mysterious Stranger"  
Officially Takes Commonwealth  
From Dixie—How Do  
You Like It?

St. Louis, Mo., Jan. 4.—Negroes are to be permitted to take the census of white persons in St. Louis and Missouri, according to an order issued yesterday at Washington by United States Census Director Durand. As a result St. Louisans and Missourians will be required to answer personal questions which will be put to them by the black enumerators.

It is the first time in the history of the state this situation has arisen. Heretofore Missouri has been classed as a southern state, and as such has been exempt from negro census enumerators.

Since it became "The Mysterious Stranger," Missouri is to be treated as a plain, ordinary northern commonwealth.

Director Durand's order directs the appointment of negroes as census supervisors in districts where the negro population may constitute two-fifths of the total population, or a larger percentage.

Missouri is not touched by this phase of his instruction, as no district has this proportion of negroes.

But so far as the enumerators are concerned Director Durand's instructions make it sure negroes will be appointed to quiz white persons wherever it is politically expected to do so.

In the same order Mr. Durand declares it is not advisable for negroes to perform a similar service farther south. White noses there will be counted by white enumerators. The work of negro enumerators there will be limited to their own race.

Illinois and Kansas are placed in the same class as Missouri by Mr. Durand's order.

The director of the census also shows solicitude concerning the negro race as a whole. He declares it is highly important that the new census give complete information regarding the negro race. It is estimated the count will find approximately 10,000,000 negroes in the United States.

Mr. Durand's letter to supervisors concludes:

"It is, of course, understood that all applicants for the position of enumerator, whether white or colored, should be subjected to such tests regarding their efficiency as may be prescribed in order that only competent persons be employed."

"There is, however, ample excuse for some of the increase in the cost of living. Farming area is not keeping pace with demands for foodstuffs. The cities seem to have more attractions for the laboring man than the rural community.

"The horde of immigration, as well as the ever-increasing native population, must be fed and the farm is expected to furnish the food."

## HIGH BEEF PRICES

FARMERS ARE BLAMELESS FOR THE DEPLORABLE STATE OF AFFAIRS.

### THE TRUTH IS TO BE BROUGHT OUT

Secretary of Agriculture James Wilson Declares Probe Shows Others Are Getting Exorbitant Profits.

Washington, Jan. 4.—"We have already discovered that the farmer is not getting the exorbitant profits out of the beef he raises," said Secretary Wilson, of the department of agriculture, in discussing the high price of food supplies yesterday.

"I have no doubt," he continued, "that the same conditions prevail in most other lines of farm products."

"The department of agriculture has agents in every state and every county and they have been ordered to report on the cost of production and the returns on sales of food products.

As fast as we receive these figures we will compare them with the prices the same products bring in the cities where they are consumed. We will then make the facts public.

"We intend to bring out the truth, irrespective of whom it hurts or whom it benefits. I am convinced that the public is compelled to pay a great deal more for nearly everything it eats than it should.

"There is, however, ample excuse for some of the increase in the cost of living. Farming area is not keeping pace with demands for foodstuffs. The cities seem to have more attractions for the laboring man than the rural community.

"The horde of immigration, as well as the ever-increasing native population, must be fed and the farm is expected to furnish the food."

### DICKEY A CANDIDATE?

Expected to Give Major Warner Run for His Money.

Jefferson City, Mo., Jan. 4.—Governor Hadley expressed the opinion yesterday that W. S. Dickey, chairman of the republican state central committee, is in the race for United States senator against Senator Warner and other republicans who may feel inclined to enter the contest.

Three weeks ago the governor practically said the same thing. Still, he insists Mr. Dickey has not told him directly that he is a candidate.

Mr. Dickey's friends at Kansas City have been sending out letters recently soliciting support for him. This, added to the opinion expressed by the governor, is taken as pretty conclusive evidence that the state chairman has really been in the race for weeks.

### Local Telegraph System.

Rush Hill, Mo., Jan. 4.—Several enterprising young men in Rush Hill have installed a local telegraph system in order to become efficient in the business. A system extending the entire length of the town is in good working order. The local telegraph agent gives the young men interested free advice frequently and helps them master the difficult points.

**Bowel Tonic For Old Folks Free**

No matter how sound and healthy old people are they still suffer with their bowels. The machinery of the system doesn't work as it did when they were young and active. But while you can't restore youth you can help age to live more pleasantly.

That a laxative is needed every little while by people as they get around fifty and beyond, there is no doubt, but it is important which laxative is taken. Old people, women and all except those who are in the prime of life should avoid anything that gives a shock to the system and which at best is but a temporary expedient. Among these are pills and cathartic tablets, salts and purgative waters. They are too strong and only do temporary good. Not only that, but they really bind the bowels next day.

What you want is something that will regulate the bowels and again get them in the habit of performing a certain function in a certain time while at the same time toning and strengthening the muscles of the stomach and bowels. Such a remedy is Dr. Caldwell's Syrup Peppermint, and if you have never used it let the doctor send you a sample bottle free of charge. In this way you can try it out. After a week or ten days you will find that it will continue to do its work. It is pleasant to take, very effective and very economical as a house remedy, as all the family can use it. But Dr. Caldwell is eager to have all readers acquainted with it to send for a free sample.

Thousands of old people and heads of families are never without it, for in this way they cure and avoid constipation, liver trouble, indigestion, sore stomach, slow absorption, sluggishness after eating, stitching and similar stomach, liver and bowel disturbances.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 509 Caldwell well building, Monticello, Ill.

### GIRL IS NOT FOUND

SEARCH FOR MISSING HEIRESS  
RENEWED ON WORD OF  
WAITER'S WIFE

### LANCASTER CLEW PROVES FALSE

Mrs. Ferdinand Cohen Hears Husband and Roberta De Janon Are Now in New York City—Grandfather is Aiding.

New York, Jan. 4.—Mrs. Ferdinand Cohen, wife of the Philadelphia waiter who disappeared at the same time as Roberta De Janon, the 16-year-old heiress of that city, arrived in New York yesterday and went to police headquarters, where she informed the detectives that she had evidence that her husband and the heiress are now in this city.

Mrs. Cohen said the only reason she was now seeking her husband was to obtain his signature so that she could dispose of 900 acres of land in Houston, Texas, at \$22.50 an acre, an offer which had recently been made to her.

"When I was married to Cohen in Cincinnati, fourteen years ago," she said, "my first husband had just died and left me, besides the Texas land, \$28,000 in cash. The money is all gone now. My present husband was

then a waiter at the Palace hotel in Cincinnati."

Mrs. Cohen returned to Philadelphia last afternoon. Her words served to switch the scene of the search for Miss De Janon and Cohen to New York.

The report that the girl and her alleged companion had been seen in Lancaster county, Pennsylvania, has been proved to be unfounded, and the police frankly admit they are at sea in the matter.

The report from Lancaster stated that a man resembling the middle-aged Cohen, accompanied by a young girl and a woman, had been seen in that place.

Lancaster and vicinity was searched, and finally the trio thought to be the persons wanted were located. They proved to be a Philadelphia salesman, his wife and a woman friend of the latter.

Ferdinand De Janon, the father of the missing girl, who went to Lancaster to investigate the report from there, returned to New York last afternoon to see it by any chance a letter from his daughter may have been received at his stock brokerage office of apartments.

Robert Buist, the wealthy grandfather of Miss De Janon, is bending every effort to locate her, and has announced that she will be forgiven if she returns.

### GIVES SANTA BAD NAME

Suspicion of Fake by Alluding to Cook and Peary.

Chicago, Jan. 4.—Santa Claus had better look out or he will lose his reputation, even with the children.

Many anxious parents are kept busy trying to explain the fact that Mr. Claus coming from the north pole doesn't necessarily mean he is mixed up in the Cook-Peary row.

Santa appeared at a belated Christmas tree celebration given by a local church, and announced he had just come from the north pole, where he had left Dr. Cook and Commander Peary.

"Aw, tell it to the Danes," shouted a precocious youngster. "I know you're a fake now."

The church authorities had difficulty in averting a stampede among the children.

### UNCLE SAM HAS BEEN SWINDLED

"Sleeper Trunks" Used to Advantage in Smuggling Paris Gowns, Hats and Other Articles Across the Atlantic.

New York, Jan. 4.—Following the arraignment of several modistes of New York and Boston, who are charged with conspiring to defraud the government by bringing in Paris gowns, hats and other finery in "sleeper trunks," it is alleged today that many other arrests, involving dressmakers as far west as the Pacific coast, will soon be made.

Less than thirty trunks are accounted for in the indictment, but the government agents learned that the number transported by the "underground express" was seldom less than 200 a year.

### SIX FOR A QUARTER VOID

United States Supreme Court Knocks Out Ordinance.

Washington, Jan. 4.—In an opinion by Justice Day the supreme court of the United States yesterday held to be invalid the ordinance adopted by the city council of Minneapolis, Minn., in 1907, requiring the Minneapolis Street Railway company to sell six tickets for twenty-five cents.

The company fought the ordinance on the ground that it was a violation of the contract implied in its charter which, issued in 1873, was to run for fifty years and authorized a charge of five cents for each ride. The United States circuit court for the district of Minnesota declared against the ordinance, and Justice Day's decision sustained that finding.

### BABE'S BRAIN WIRED

Silvery Strand Runs to Stomach to Drain Head.

New York, Jan. 4.—A tiny silver wire driven into his brain probably saved the life of the 8-months-old baby of Mrs. Catherine Nevins. The operation was performed to relieve hydrocephalus or water in the cavity of the cranium.

Dr. A. E. Had extended the wire through the brain to the neck and chest to the stomach, forming a duct through which the water on the brain was drained to the stomach. The child faced idiocy or death without this step.

MARION C. HEDGEPETH KILLED WHILE ROBBING A CHICAGO SALOON.

**SHOT BY POLICE AFTER HOLD UP**

Several Guesses Were Taken Before Correct Identification Is Finally Established—Many Crimes Made Him Famous.

St. Louis, Mo., Jan. 4.—The body of a man known as Arthur Heywood, killed by a policeman in Chicago on New Year's eve, while trying to rob a saloon, was yesterday identified by Assistant Superintendent E. J. Weiss, of the Pinkerton National Detective agency, as that of Marion Columbus Hedgepeth, notorious in St. Louis and Missouri, with a long record as a train robber, bank burglar and hold-up man, states a dispatch to the *Globe-Democrat*.

Hedgepeth originally came from Prairie Home, Cooper county, Mo., where his mother still resides. He had been known from time to time under the following aliases: Sam Woods, L. L. Williams, H. V. Swanson, Marion C. Hedgepeth, Marion Davis, George Scott, M. Hedgepeth, J. J. Morgan and J. C. Clark. His record is summarized as follows:

Sentenced to the penitentiary in Jefferson City, Mo., Nov. 19, 1883, for grand larceny and jail breaking in Cooper county; served five years and three months.

Sentenced to the same penitentiary Sept. 28, 1893, for train robbery; pardoned July 4, 1906.

Committed to Fort Madison, Ia., state prison Sept., 1907, for burglary; sentence set aside April 10, 1909.

Hedgepeth was 46 years old, of tall and powerful build in his early days, but in late years seemed old and broken. For the last twenty-one years he had been out of jails or prisons only three.

It was he who first gave to the Chicago police the tip that led to the arrest of Dr. H. H. Holmes, of "Holmes Castle" fame, who was executed for many murders in Chicago and Philadelphia.

The Glendale train robbery, which first brought Hedgepeth into notoriety in St. Louis as a desperate criminal, occurred at 9:45 on the night of Nov. 30, 1891, one-half mile west of Glendale, St. Louis county. Four men flagged a Frisco train and dynamited the strong box in the express car. The plunder amounted to between \$40,000 and \$50,000. Three others were associated with him. Adelbert Denton Slye, Lucius R. Wilson and James Francis.

was learned that four men and a woman had occupied a house at 1214 Swan avenue, which was deserted when the police visited it. December 14, 1891, Slye was arrested in Los Angeles, Cal., while inquiring for his mail at the postoffice. He had embarked in the saloon business there, paying \$5,000 for a place, and when his room was searched \$4,000 was recovered. Mrs. Maggie Hedgepeth, wife of the gang's leader, alias Florence A. Waterman, was arrested in Oakland, Cal., a few days later, and on Feb. 10, 1892, Hedgepeth himself was apprehended in San Francisco when he called for mail.

Slye pleaded guilty to the robbery at Glendale and was sentenced to twenty years in the penitentiary. Hedgepeth stood trial and was convicted on Sept. 28, 1893, and sentenced to twenty-five years in the penitentiary. His wife's case was discontinued generally.

During Hedgepeth's incarceration in the St. Louis jail, where he was placed for safe keeping, a key was found in his cell which fitted the lock. It was claimed that the key had been smuggled to Hedgepeth, but he found no opportunity to use it.

On July 4, 1906, Governor Folk pardoned Hedgepeth. It was said at the time that the pardon was due to the train robber's failing health and the importunities of friends. Later, however, it developed that Hedgepeth, by informing on his fellow-prisoners, had enabled the warden and the guards to rip in the bud the plans of a desperate coterie of prisoners to escape.

One condition of Hedgepeth's pardon was that it would be nullified if he failed to lead an exemplary life after leaving the penitentiary. It turned out that he did not do so, although efforts to have him returned to the Missouri penitentiary were without avail.

In August, 1907, he was arrested with vagrant named Rodgers for attempting to blow a safe in Council Bluffs, Ia. He was convicted in Council Bluffs in September, 1907, and given an indefinite sentence in the Fort Madison prison. The supreme court of Iowa set aside the sentence April 10, 1909.

About four weeks ago Hedgepeth visited Chief of Detectives James H. Smith. He had registered at one of the best hotels of the city under an assumed name. He told Chief Smith that he had given up a career of crime for the work of a strike breaker, and that he proposed going to Chicago, where he had been offered a lucrative position as the head of a flying squadron of strike breakers. Chief Smith tried to dissuade him. This was the last local police saw of Hedgepeth.

**MISSOURI FARM BRINGS \$29,000.**

Columbia, Mo., Jan. 4.—J. T. Moreland, of Saline county, yesterday paid \$29,000 for 509 acres of farming land southeast of Columbia. He bought it from Terry Conley. The farm is one of the biggest and best improved in Cedar township.

He has paid enough in the year to amount to more than the principal and the legal rate of interest, yet he owes Mr. Stevens \$16.50, according to the demands made on him. And Mr. Stevens has a watch chain and locket set with a diamond as security.

Mr. Elder signed a complaint yesterday before Ruby D. Garrett, assistant county prosecutor, charging Mr. Stevens with exacting usury. The case will be tried in Justice Richardson's court.

They Killed 951 Rabbits.

"Rich" Williams, the barber, has received from a friend at Pleasanton, Kas., a postal card showing two rabbit-hunting parties of 32 each who killed 951 rabbits on a day's hunt last week, which resulted in the successful team being the guests of the losers at an oyster supper.

A Vow Unto the Lord.

1. Our Father which art in heaven, hallowed by Thy name. May Thy rule come into my heart more and more, and Thy will be done in my mortal body. Relying on the assistance of Thy promised grace to help in every time of need, through Jesus Christ our Lord. I register this vow.

2. Daily will I remember at the throne of heavenly grace the general interests of the harvest work, and particularly the share which I myself am privileged to enjoy in that work, and the dear laborers at the Brooklyn tabernacle, and everywhere.

3. I will vow to still more carefully, if possible, scrutinize my thoughts and words and doings, to the intent that I may be the better enabled to serve Thee and Thy dear flock.

4. I vow to Thee that I will be on the alert to resist everything akin to spiritism and occultism, and that, remembering that there are but two Masters, I shall resist these snare in all reasonable ways, as being of the adversary.

5. I further vow that with the exceptions below, I will at all times and in all places conduct myself toward those of the opposite sex in private exactly as I would do with them in public, in the presence of a congregation of the Lord's people.

6. And, so far as reasonably possible, I will avoid being in the same room with any of the opposite sex.

## PLANS FOR A HOME

HARVEY J. SMITH, CONDUCTOR  
ON M. K. & T., SECRETARY  
OF THE ASSOCIATION.

## MAY CONTRACT FOR NEW BUILDING

Institution to Care for Aged and Disabled Operatives—Men Contribute to Fund—Located at Tucson, Arizona.

St. Louis, Mo., Jan. 4—Mooreton W. Tanner, a mining man of Tucson, Ariz., who represents the National Railroad Operators' association, arrived in St. Louis yesterday, and while here may secure an architect and builder for the new \$500,000 home for aged and disabled railroad employees at Tucson, work on which is to commence in May.

Tanner, who is at the Terminal hotel, has been all over the United States getting information and suggestions in regard to the home, and expects to remain in this city about a month.

For many years such an institution has been the hope of the 700,000 railroad men of the United States. The home will be supported by subscriptions of from \$1 to \$10 by the railroad operators of the country. All surplus money left over from the cost of the home will be held as a trust fund, which will be invested. The object of the trust fund is to make the institution permanent.

The home will be located on 200 acres of land, and the architecture will be after the Mexican style. The building will be of concrete, two stories high, and fitted out with verandas and courtyards.

A hospital and farm will be a part of the home, as well as agricultural and trade schools, where the inmates of the home will be given an opportunity to work. These schools will be established in separate buildings. Everything eaten in the home will be raised on the grounds.

The association has elected temporary officers, and permanent officers will probably be chosen within two weeks. Samuel Pruty, formerly a conductor, but now a commission merchant, is president; S. G. Langston, general land and mining agent of the Missouri, Kansas and Texas railroad, vice president; L. Pierce, superintendent of the Union depot at Denver, Colo., treasurer. Harvey J. Smith, secretary of the association, is expected to arrive today from Sedalia, Mo., to assist in preparing for work on the home.

### Landmark Torn Down.

Liberty, Mo., Jan. 4.—One of Liberty's oldest landmarks, the Hallissy house, will soon be no more, as it is being torn down to make way for a lumber yard and railroad tracks.

The original part of the house is thought to be at least seventy-five years old. It was built of logs in the old-fashioned way, with a room at each end and a "blow way" through the center.

The idea in building a house with an open space through the center was to have fresh air pass through and to make the house cooler in summer.

A few years ago the house was enlarged and changed in many ways, but it was still considered one of the interesting landmarks of the city.

### Will Be Married Tonight.

Leroy Raines, a clerk for W. J. Letts, the East Fifth street grocer, and Miss Anna E. Battles, of 1400 East Fifth street, were granted a marriage license here this afternoon. The ceremony will be performed at the home of the bride at 8 o'clock tonight.

Let's Talk It Over

## TWO STORES MOVE TODAY

The "Globe" and the "Hub" Have Exchanged Locations.

A very singular circumstance exists with the Globe clothing store and the Hub clothing store, located at 105-7-9 West Main street. Today these two firms are moving—the Globe to the room formerly occupied by the Hub, and the Hub going into the rooms occupied by the Globe.

The Hub leased the Globe's quarters several months ago, and the Globe, not finding any other room available, closed a lease for the Hub building.

The time for holding their respective buildings expired Jan. 1, 1910, and the holders of the leases gave written notice to the other to move.

This was done just before the first of the year, and while both had thirty days in which to move, it was deemed expedient to move at once, in consequence of which both firms transferred their stocks today.

The Hub stock was moved to the second floor of the building it occupied and thence taken through a door to the second floor of the new quarters, getting onto the main floor by descending the stairway.

The Globe carried and trucked its stock to the Hub's old quarters through the front and rear doors.

Both firms will begin at once to make alterations and fit their respective quarters up for immediate service. The Globe will have an entirely new front put in and make other improvements necessary to conform to the views and policy of the owner.

## NEWS OF THE RAIL

CHIEF CLERKS OF DIVISION SUPERINTENDENTS ON CARPET AT ST. PAUL.

### COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

The chief clerks to the division superintendents from several points on the Great Northern line were on the carpet at the local offices in St. Paul Monday to tell what they know regarding the trip pass frauds uncovered lately, which netted approximately \$300,000 annually.

The chief clerks have all been asked to come to St. Paul and explain their accounts," said L. W. Hill, president of the Great Northern.

"This does not mean that any or all of them are implicated in these frauds. They are men who are trying to earn a living just as you or I, and they may not be to blame or mixed up in some of the things that have been going on, but they are asked to come in and go over the records of their offices.

"The talk about the chief clerks being discharged is greatly overdone. There may be some developments later in the week."

### Case of Striking Switchmen.

Parties to the conference over the situation of the striking switchmen of the Northwestern railroads agree that no new developments had arisen since last Friday.

H. B. Perham, the representative of the switchmen, called at the offices of the Interstate Commerce commission in Washington Monday, with a view to resuming his conferences with Chairman Knapp, of the commission, and Dr. Charles P. Neill, commissioner of labor, the mediators under the Erdman act.

Chairman Knapp was obliged to forego the conference because of important work with the commission, and Dr. Neill was out of the city for the day.

### Katy Officials Return.

President Allen of the Missouri, Kansas and Texas has returned to St. Louis headquarters with Vice President Hatle from New York.

C. N. Whitehead has been elected secretary and treasurer to succeed C. G. Hedge.

### Who "Nipped" the List.

Some vandal has stolen the Missouri Pacific seniority list of brakemen and conductors, which was posted at the conductors' register room Sunday, in consequence of which the secret service is trying to locate the thief.

### Wage Demands of Trainmen.

On behalf of the Brotherhood of Railroad Trainmen an the Order of Railroad Conductors, who have made demands for higher wages on all railroads east of the Mississippi, it was reported by their local officers in New York Monday that the demands would lie in abeyance, so far as the thief.

**SALOON THOUGHT NO. 281.**

Joplin is "broke." They have no money to build roads. It is another illustration that a city can't build million dollar mansions for brewers and then have money in the city treasury. Windsor, Mo., had city debt when they closed their saloons and NOW they have as much money in their city treasury as Joplin has. Compare the size of the places. Whiskey is sold in Windsor—yes, it is, and will be just as long as the federal government gives those violating criminal laws protection. The very fact that the brewers try to put saloons back in dry territory is proof to the sane man that they can make MORE money with the licensed saloons.

Liepsic, Ohio, had saloons and their usual debt. They saw their folly and voted their saloons out and now they have over \$15,000 in their city treasury.

Think of it—Joplin has received \$27,000 from her saloons for years and years and now, when they are going to vote on the saloon issue, they go to telegraphing all over the United States that they are broke. They do not tell of their bonded indebtedness, voted during saloon rule; \$27,000 for years and years, and now 10 cents for each inhabitant in the city treasury thirty days before an Anti-Saloon election. That ALONE should be sufficient ground to close their saloons.

Liepsic, Ohio, had saloons and their usual debt. They saw their folly and voted their saloons out and now they have over \$15,000 in their city treasury.

goliations with the companies are concerned until about the 20th of this month.

This, it was explained, was because the election of the local finance committees and their officers, which takes place every two years, was held last month.

### Watchman Had Misfortune.

"Bob" Martin, crossing watchman for the Missouri Pacific on Ohio avenue, reports that during the cold spell last week someone unlocked and left open every door at his home, 1522 Harvey street, causing \$50 worth of house flowers to freeze and die.

### Roadmasters Are Here.

William Pace, roadmaster for the Missouri Pacific at Washington; John Brandt, roadmaster at Jefferson City; J. W. Stewart, roadmaster at Bonneville, and J. T. Pace, roadmaster at Myrick, are here today, attending the monthly meeting of company roadmasters.
